We thank every young person who attended and enriched our discussion with his valuable inputs at our 9th gathering, with his thoughts that described openly, directly with great transparency the opinions, thoughts, fears of the youth towards the labour market.

Special Thanks to Om Bassem, who shared with us her wonderful life-experience and let us be proud of such wonderful powerful Egyptian women, and Special For Dr. Ihab Maged, who delivered and presented the importance of planning my life and finally THANKS to all young people for their wonderful interactive discussion ...which enriched the gathering with their spirit and valuable ideas.

We thank all of you, who supported and believed in this initiative, we could not make it, only

Through you, by you and for you
